

Push-On Technology for Faster Assembly

We are excited to announce the launch of our **SemperPUSH multipurpose hose**, now part of the Semperit product range. This innovative solution offers **quick and easy installation** without clamps or special tools, significantly reducing assembly time.

Why Choose SemperPUSH?

SemperPUSH delivers **high-quality performance** across a **wide range of industrial applications**, ensuring reliability in demanding environments. It comes in a **broad size range**, giving you **maximum flexibility** for different setups. To make installation easier and reduce downtime, the hose is available in **three color options** – red, blue, black, with additional colors available upon request as stripes on a black hose cover. The product is available in five different sizes.

Key Features

Tube:	ARPM Class A oil resistance
Reinforcement:	Textile braid
Cover:	ARPM Class B oil resistance, flame, oil, weather and high abrasion resistant – black, blue, red color other colors with stripes upon request
Temperature range:	Air: -40°F to +158°F (-40°C to +70°C). Water: -40°F to +190°F (-40°C to +88°C). Oil: -40°F to +212°F (-40°C to +100°C).
Electrical resistance:	Non-conductive
Working pressure:	300 PSI (20 bar)
Design Factor:	4:1
Packaging:	Reels
Industry standard:	MSHA

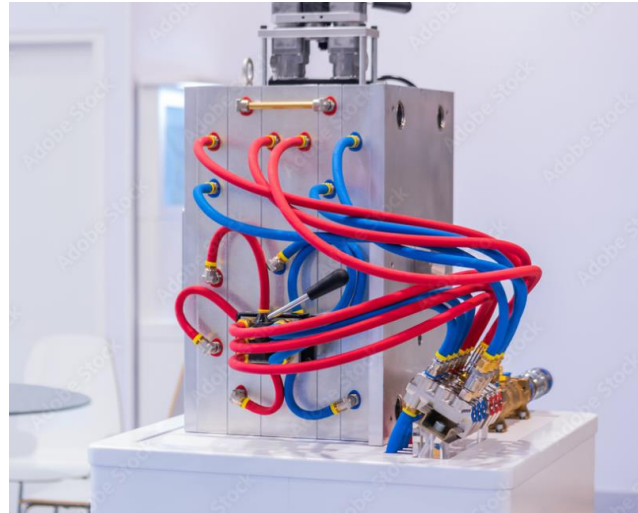

Enables quick and easy installation without clamps or special tools for maximum convenience.

Applications

SemperPUSH is designed to meet the needs of a wide range of industries and applications:

- Air, water, oils and fuels, including diesel, gasoline and ethanol; biodiesel up to B20 in dedicated service.
- Agriculture, construction, general industrial use
- Automotive and factory assembly equipment (color-coded for efficiency)

Available sizes

- Ø 1/4" (6.4 mm)
- Ø 3/8" (9.5 mm)
- Ø 1/2" (12.7 mm)
- Ø 5/8" (15.9 mm)
- Ø 3/4" (19.1 mm)

Color Coding

By offering the **SemperPUSH** in three different colors — **black**, **blue**, and **red** – we provide clear advantages during installation. In applications where several hose lines transport different media, color coding helps reduce the time needed to identify the correct line, prevents accidental disconnection of the wrong hose, and minimizes costly downtime. Upon request, SemperPUSH can be supplied as a black hose with colored identification stripes in blue, red, yellow, grey, green, or orange.
