

## Introducing High Temperature 2HT Hydraulic Hose

We would like to introduce you to our new advanced **2 wire braid high temperature** hydraulic hose – featuring a hot temperature resistant inner liner and blue cover for **hot oil, cooling and compressor applications!**

### Key Features:

#### **Performance with high temperature resistance**

Unmatched in harsh conditions, ensuring reliable performance while withstanding temperatures up to 150°C.

#### **Durability**

The new developed hot oil-resistant liner and blue cover compounds extend the hose's lifespan, reducing the need for frequent replacements.

#### **Dimensions**

Available in sizes DN6 – DN25 to meet various application needs.

#### **Approved system with NO-SKIVE fittings and improved compression set**

Ensures a secure and leak-free fitting combination.

#### **Abrasion and ozone resistance**

With an average abrasion resistance of 0.4g and ozone resistance up to 400 hours, this hose is built to last.

#### **Quality**

Outperforms competitor hoses, providing a higher standard of reliability and performance.

**Experience the difference with our high temperature 2HT hydraulic hose and enjoy enhanced performance and durability.**
